

Nephilim Among Us

Modern Day Giants

David R. Fashenpour

Chapter 5:

The Finale

The attack of the Watchers and take-over by the modern-day Nephilim would result in the end of our ‘world’ as we know it. But because our lives and our faith must survive all situations; we must put on the full armor of God, the belt of truth, the breastplate of righteousness, feet with readiness from the gospel, the shield of faith, the helmet of salvation, and the sword of the Spirit - the word of God. That is how Daniel survived the lion’s den and that is how we can be victors in this world gone mad.

Limited Sensory Perception

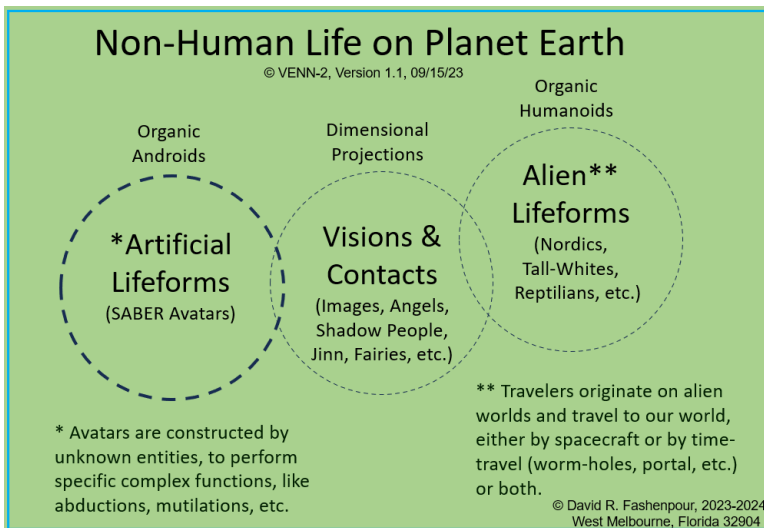

Humans cannot see everything around us; we can only see the things that we must see, to successfully navigate our limited senses, to achieve our goal of survival and to avoid dangerous encounters. Our fight-or-flight response system recognizes established, well-known objects, and determines the appropriate response. Our ears, nose, and other sensory generators are likewise limited – allowing us to function successfully, without overwhelming our abilities

by acquiring more incoming data than our processor is able to bear. Given sounds that are unfamiliar to us, light frequencies that are outside our natural capacities, and smells that are not in our ‘wheelhouse’; success is not guaranteed because we may not be able to detect a foreign object and/or creature that is near to us; due to the limitations of our sensory inputs. Most of us cannot deal with the idea that an entity is standing right next to us, but if we truly do not notice any indications that something is present – then you will either have to either ignore the possibility (like most people do) or accept, that due to our limitations; its possible other objects/lifeforms are coexisting with us. If we do get a glimpse of a nearby entity, we may be curious at first - or maybe, a bit confused; or maybe uttering a simple “that’s weird!”, will suffice.

Cognitive Processing Activates

If we ever do decide that there is something nearby, our curiosity will take over and we will initiate a fact-finding expedition. If a rational explanation satisfies your search for answers, then you may continue on with your life – but not knowing exactly what caused the alert will raise your defensive mechanisms and more than likely you will feel **fear**. If the situation persists and the actions you have taken

do not work – your fear will most likely turn into **panic** and could result in irrational activities, which may have no real purpose and probably will make matters worse. Continuing down the fear/panic ladder will lead you to destruction; because clear thinking and effective actions have been abandoned. This is precisely the time to gather whatever inner strength you may have, from any of the proven sources of strength that you draw from. Strength yields confidence, and confidence yields effective actions, which may be enough clear-thinking to save the day. The Lord says His yoke is lite and He wants to trade with you - and bring you peace.

LIFE IS ALL AROUND US

The Unseen World

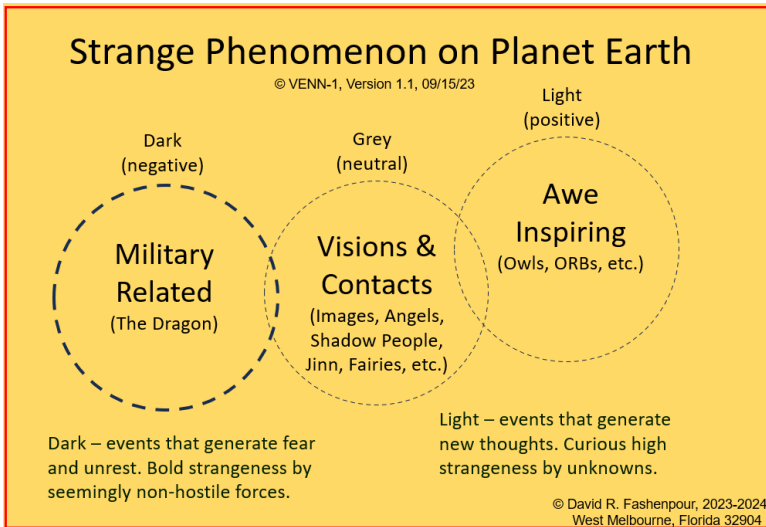

There is reason to believe that there are a variety of *entities around us* – all the time. Entities that can coexist, undisturbed by our world and have been doing so for many thousand years. Gnats, dander, dust, and extremely small insects are around us continually, maybe never biting you, or disturbing you in any way. Bacteria, mold-spores, viruses and allergens are literally everywhere; but we will never know about any of them until we get sick. There are thousands of more natural phenomenon that pass through our lives daily – that we know nothing about.

The fact is that there are probably thousands of undiscovered natural phenomena that exist all around us: in our homes, in the open air, in the clouds, and even in the upper atmosphere that we know nothing about. The complete set of “non-human” lifeforms, as seen in the Figure above, includes artificial organic androids, visions and heavenly contacts (guardian angels, etc.), and those legendary travelers from nearby planets. Some are considered physical (obeying our laws of physics) and some are not (clearly originating in other realms of existence and

are considered extradimensional). For the purposes of this dissertation, we will concentrate on the strange organic androids, alive – but not, physical – but not. These SABER Avatars were manufactured by an intelligent lifeform – somewhere. They are here to perform a rather sophisticated function – for someone. We are left with all of the questions and no answers.

The SABER Avatars do not obey our Laws of Physics and are probably from a different dimensional envelope* being able to appear and disappear at will. These extradimensional entities have supernatural abilities of time-travel, shapeshifting, passing-through matter and leaving no trace, communicating directly with our thoughts, and even being able to put ideas and thoughts into our minds – without us being aware. What can we conclude at this point? The most logical conclusion to this disjointed mystery is the possibility of **a connection** between the manufactured SABER Avatars and the ever-present, menacing Phenomenon. It may be possible the connection was born in the days of antiquity - when 200 Fallen Angels were rejected by God and The Dragon began its evil retribution.

* Not of our world.

STRANGENESS IS ALL AROUND US

Strange Phenomena

Strangeness can be positive and inspiring but can also terrify the shocked observer. The mysterious appearances of Owls, before or after exotic events is very curious and has generated a following that insists Owls are simply shape-shifted entities from another dimension. Likewise, there are those that see Shadow People and other sometimes spiritual visions and these observers must deal with those experiences using their own special coping tools.

But we are not concentrating on those factors here – here, we will be concentrating on the Phenomenon that threatens our National Defense. The Military Related threat that we will call The Dragon. The Phenomenon, as described by the Department Defense, aligns perfectly with the capabilities of The Dragon. Now you can understand why the military is nervous about an entity that is superior to us in every way. It would help very much if they knew who or what this presence is and what it is doing here - harassing our weapons of war and intimidating our war fighters. The Military does not have an answer to that question. But we can compare the actions of the Phenomenon and the methods used by the ancient Watchers to see a direct similarity – supernatural rebels causing chaos and instilling fear in the populace. It has been approximately 80 years since the United States has exploded a Nuclear Bomb and that milestone triggered all forms of ‘high strangeness’ on our planet: the possible beginning of saucers, orbs, missing time, missing people, backyard visitations, animal mutilations, military interference, and the abduction of human sperm and human ovum - for purposes yet to be revealed. When a connection is made between The Dragon and the SABER Avatar, there can be only one outcome – the continuance of the Seed War.

Dealing With Companions

These coexisting entities can either be positive & reaffirming, neutral & boring, or negative & destructive. Can you tell if you are with your ‘guardian angel’, or are you by yourself, or are you standing in the presence of a demon? Most of the time you cannot tell which entity you are dealing with. Here are some hints that may expose what kind of day you may be having:

1) Have you had a time when everything has fallen **wonderfully into place** and all surrounding actions were successful? Maybe your guardian angel is there with you, or maybe not.

2) Or how about the time when nothing failed, but things just **didn’t seem right**? Maybe you needed someone there with you – maybe yourself is not sufficient. It’s good to have company.

3) How about when **nothing seemed to work**, and even anger didn’t help? Just maybe, that negative radiation is overwhelming your efforts and your conclusions. Wouldn’t that be a great time for a relaxing break. Draw from that inner-strength and begin again. Maybe your expectations determine the outcome of your events, or not.

Growing Up

A big part of mastering this thing called life is to know how to nurture the positives and smother the negatives; to seek your inner-strength and discover confidence in your own capabilities to succeed.

Calling on the name of the Lord is not just a slogan for the faithful, it is a battle-cry for those in trouble and for those who need a friend. You cannot know or believe that you will never be in a situation that is impossible – a time that you think all is lost. The truth is that you will most certainly find yourself in a variety of terrifying situations of danger, grief, or life-bending adjustments to your belief system; if so, what are you going to do?

Invoking the name of Jesus

There is a reason why those SABER Avatars flee from anyone rebuking them, in the name of Jesus Christ. The most logical reason is that have been programmed and controlled by The Dragon; the evil Phenomenon that is manifested by the Watchers (demons), originating in a dimensional location that shakes-in-fear when the name of the Messiah is declared loud and clear. Calling on Jesus, declares victory in the Seed War of Old and reminds the

Watchers that God is still in control of today and tomorrow.

This is the final battle, the last opportunity to destroy God's perfect creation and bring forth Nephilim DNA upon the Earth – linking the world population to The Dragon. Instead of love and mercy – the 'new age' characteristics of hate and cancel-culture will ensure destruction of our culture first and then our civilization. Love and mercy are embedded in forgiveness, while hate and 'cancel-culture' are based in vengeance.

Existential Events

There are many possible existential events that might confront us, such as: Pandemics, Natural Disasters, Nuclear Wars, Revolutions & Civil Wars, Economic Collapses, and of course the famous Alien Invasion, with the mile-long motherships posted above every major city of the world. In every example that you can think of – you will need strength and wisdom in order to survive successfully. People with a relationship to God have a “ripcord”, a parachute”, a backup plan, and a get out of jail, free card. That confidence may yield smart decisions, a level-head, and a peace that surpasses all understanding. People without that relationship may perform just fine, with no help; maybe not.

The Bottomline

So, what is the solution for people of faith, living in a world that has lost its way? The answer is God, and the methodology is in the utilization of holy scriptures, instructing us in how to build-up your faith and your defenses -- in the face of demonic attacks. The best defense against the onslaught of The Dragon, with its evil supernatural powers, is to put on the 'Full Armor' of God, in Ephesians 6:10-20:

- 1) the belt of truth,
- 2) the breastplate of righteousness,
- 3) feet with readiness from the gospel,
- 4) the shield of faith,
- 5) the helmet of salvation, and
- 6) the sword of the Spirit –the WORD OF GOD.

Call to Action

Our **Faith** does not direct us to our closets for prayer, it calls-out for us to put on the Full Armor of God and to go forth – onto the battlefield and to challenge The Dragon. It

calls-out for us to speak the **Truth** and not to accept destructive propaganda and misinformation. It calls-out for **Righteousness** – living a Christ-centered existence, even amid trials & tribulations brought-on by the Watchers. It calls out for **Readiness** – in the anticipation of the enemy’s next move, we must always be proactive and prepared, expecting to be attacked at any time. The story has a joyous ending because we win and The Dragon loses – guaranteed by our promised **Salvation**. Our victory is assured through love, resolution, and determination, obtained by living and breathing the sword of the spirit, which is the **Word of God**.
