

I spent 7 years, 11 months, and 20 days in the US Navy. When I got out, I worked for Florida Power & Light for 31 years! Now I'm old and courting a 30 year old woman and that's about it.

I didn't mention that I went through 2 wives... don't think I want to mention it.

I now have a generator company – we operate in southwest Florida.
